PROJECT CHANGES:

1. ADD

Specification: County of Marquette Financial Policy on Prevailing Wage

1. Prevailing Wage on Construction Contracts

The advertised specifications for every contract in excess of \$50,000 to which the County of Marquette is a party, for construction, alteration, and/or repair, including painting and decorating of public buildings or public works in or for the County of Marquette, and which requires or involves the employment of mechanics and/or laborers, shall contain a provision stating the minimum wages to be paid the various classes of laborers and mechanics that shall be based upon the wages determined by the Secretary of Labor to be prevailing for the corresponding classes of laborers and mechanics employed on projects of a character similar to the contract work in or in the vicinity of the County of Marquette. Projects funded in whole or part by the Federal and State government may have other criteria for the requirement of prevailing wages. If more restrictive than County Policy, those procedures will be followed.

Every contract based upon specifications referred to in (a) above shall contain a stipulation that:

1. Contractor or his subcontractor shall pay all mechanics and laborers employed directly upon the site of the work, unconditionally and not less often than once every two weeks, and without subsequent deduction or rebate on any account, the full amount accrued at the time of payment, computed at wage rates not less than those stated in the advertised specifications, regardless of any contractual relationship which may be alleged to exist between the contractor or subcontractor and such laborers and mechanics;
2. The scale of wages to be paid shall be posted by the contractor in a prominent and easily accessible place at the site of the work.
3. There may be withheld from the contractor so much of accrued payments as may be considered necessary by the County Administrator to pay laborers and mechanics employed by the contractor or any subcontractor on the work for the difference between the rates of wages required by the contract and the rates of wages received by such laborers and mechanics except those amounts deducted or refunded pursuant to the terms of P.A. 166 of 1965 (MCL 408.551 to 408.558) and interpretations thereof.
4. The overtime pay to which a laborer or mechanic working on the contract is entitled shall be that overtime pay to which he is entitled by any agreement he may have made with the contractor or subcontractor or by any applicable provision of law, but in no event shall such amount be less than the prevailing wage in Marquette County for such overtime.
